### Press release

Dear customers, suppliers and partners:

We are pleased to inform you that BPW Trapaco S.L.U. has recently closed the acquisition of Tot Frens SL, as well as New Truck System SL, both companies specialised in the trade of accessories and spare parts for commercial vehicles. Both companies, with headquarters in Igualada and Barberá del Vallés (Barcelona) respectively, and 28 employees in total, have an impeccable track record and more than 20 years of experience in the commercial vehicle segment.

We are pleased to be able to confirm the continuity of the brothers Marc and Francesc Salisi i Vilaplana, managers of Tot Frens and responsible for the successful evolution of both companies in recent years, as well as the entire team of Tot Frens and New Truck System SL. The Salisi brothers will continue to manage both branches and will also take over the expansion of the Abrera branch.

With this acquisition, BPW Trapaco expands its network in Catalonia after opening its facilities in Abrera (Barcelona) at the beginning of this year and will guarantee accessibility to the components and offer the best service.

With the closing of the aforementioned operations, BPW Trapaco now has facilities in Alcalá de Henares (Madrid), Zaragoza, Granada, Algeciras, Seville, Valencia, Abrera, Igualada and Barberá del Vallés.

Alcalá de Henares, 15.09.2023
